

National Weather Service Milwaukee

# 2017 Severe Weather Safety & Spotter Training Class

Monday, April 17th – 2-4pm & 6:30-8:30 pm

Alliant Energy Center Exposition Hall

1919 Alliant Energy Center Way, Madison

## First Hour: Severe Weather Safety

- *Tornado safety*
- *Wisconsin's Tornado History*
- *How to get information quickly*
  - *Damaging wind safety*
  - *Flash Flood safety*
  - *Lightning safety*
  - *Hail safety*

## Second Hour: Storm Spotter Training

- Why does the NWS need spotters?
- What weather should be reported?
  - When should you report?
  - How should you report?
  - Radar interpretation
    - Storm features
  - Storm spotting safety

***FREE training. OPEN to the public. NO registration.***

- Led by a National Weather Service meteorologist.
- Highly recommended for members of law enforcement, fire service, EMS, dispatchers, any other first responders, and amateur radio operators.
- There is no obligation to become a storm spotter. All are welcome to stay for both training sessions.

*Sponsored in cooperation with Dane County Emergency Management*
